

PRODUCT FEATURES

- Produces stunning effects
- Can be used as pearl substitutes in most basecoats
- Excellent results when used to adjust colors

NUCLEAR PEARLS are a universal powder pearl system that can be used in conjunction with our **BURSTING CANDIES** and **DYNAMITE BASECOATS** to produce stunning effects. These stunning pearls are the result of the latest research and development for automotive refinish and OEM, representing the most pure and crystal clear effects in today's market. **NUCLEAR PEARLS** can be added directly into our **BURSTING CANDIES** or into the **MC450-4 2K Mid Color Binder** when painting candy colors or 3 stage paint jobs. They can also be used as pearl substitutes in competitor's basecoats. It is not recommended to add more than 1 gram of **NUCLEAR PEARLS** per 200 grams of **MC450-4** or **BURSTING CANDIES**. If a scale is not available, add 2 to 3 teaspoons of pearl to 1 quart of MC450-4.

AVAILABILITY

(Filled by weight, not volume)

PR250	Nuclear Pearls - Holographic Flake	90 grams bottle / 6

PRODUCT SAFETY INFORMATION

Before using any AXIS Product, be sure to read all safety directions and warnings. WEAR PROPERLY FITTED AIR PURIFYING RESPIRATOR with organic vapor cartridges (NIOSH approved TC-23C) and particulate filter (NIOSH TC-84A), eye protection, gloves and protective clothing during application and until all vapors and spray mists are exhausted. In confined spaces, or in situations where continuous spray operations are typical, or if proper air purifying respirator fit is not possible, wear a positive-pressure, supplied air respirator (NIOSH TC-19). In all cases follow respirator manufacturer's directions for respirator use. When mixed, also contains Isocyanate. Do not permit anyone without protection in the painting area. FOR USE ONLY BY TRAINED PROFESSIONALS. Not for sale to or use by the general public. For more information CONSULT MATERIAL SAFETY DATA SHEET.
